

Hello - I'm Luke. I currently work as a Senior Clinical Fellow in Simulation at the Northern Care Alliance, having completed Core Training in Anaesthetics within the North West.

I graduated from the University of Leeds in 2018, where I also achieved a Masters of Research, working on a novel project to develop "Wearable Soft Robotics".

Outside of work, I'm a keen cook and racket sports addict, captaining my team in the North West Counties Squash League.
