

Dr Naveen Rao

I have been a Consultant Paediatrician since 2009 and am based at Wythenshawe hospital. I have a special interest in Paediatric Respiratory Medicine, Allergy and Medical Education. I am the Deputy Clinical Director for Acute & General Paediatrics at Royal Manchester Children's Hospital and lead on service transformation in acute paediatrics across Manchester region.

I have been heavily involved in education and training both at undergraduate and postgraduate level. As Staff development lead for South, I have helped with development of and led on the roll out of training for Clinical placement supervisors and development of teaching resources. I am a Royal College of Paediatrics Examiner, and START assessor. I have been awarded a Fellowship by the Health education academy for my contribution to medical education.
