

I am currently a Paediatric trainee working as a registrar in the North West. I have a strong interest in medical education and will soon be undertaking a medical education fellowship at Royal Manchester Childrens Hospital where I hope to pursue this further. I completed my undergraduate training in Manchester and am proud of the wide range of hard working and innovative clinicians in our region. I have been involved with Manchester Medical Society Paediatric section for several years now and I am always excited to see the variety on display as events come together.
